

Sponsored Program Activity Quarterly Report

Office of Research & Sponsored Programs

The information contained in this report is drawn from the Evisions database and provides comparisons of the amounts of external funding for the first quarters of FY 16 and FY 17. This report includes all proposals that completed internal routing and were marked as fully “approved” and all awards that were processed and entered into the system as of October 15, 2016. Proposals submitted for internal routing but not yet approved and awards not fully processed as of that date will be included in future quarterly reports.

Only units with sponsored program activity during one or both of these periods are represented in this report. For the purposes of this report, proposals and awards are listed under the administrative unit listed in Evisions. Many proposals include interdisciplinary collaborations that are not captured in this report. Following the charts are lists of grants awarded and submitted year-to-date in FY 17. If any of the information in this report does not correspond to your records, please notify orsp@utc.edu.
